Learning Living Loving Together

18th September 2019

Dear Parent/Carer

Autumn Term Homework 2019-2020

Please find attached your child's homework map for this term. In addition to the homework, all children in KS1 will have reading three times a week and spellings. In KS2, the children will have reading three times a week, spellings and maths timestables. Reception children will have tub words and reading books as appropriate.

There will be a new homework map for each term and it will always be sent out at the start of term. We ask that you help your child to pick two for each term, so there will be six homework activities a year. These activities will compliment what the children are doing in the classroom. They will not be the traditional based homework tasks but encourage family-oriented activities. We will be encouraging families to talk about their child's class based learning at home.

We believe that homework is more interesting, engaging and develops multiple skills like critical thinking, creativity and an inquiring mind.

Year 6's will have some written and maths homework to support them through SATs. This will be revision questions and revision books.

The first homework will be due on Monday 14th October with the second being due on Monday 9th December.

Yours faithfully

Mr D Smith
Deputy Headteacher

Grow your own mould

Place a piece of fruit in a warm place and watch what happens. Record your observations in a diary.

Visit Peterborough Museum's

'Operating Theatre' to learn about hospitals in the past.

Interview a medical professional (e.g. doctor, nurse, chemist, dentist, optician) about their job. Write your own questions to find out as much as you can to report back to the class.

Based on your knowledge of growth mindset, create a model of how the brain learns.

Create your own blood

Follow these instructions to make blood in a bottle.

<https://bit.ly/1ViE52c>

Create and make a model of the digestive system using household materials (eg tin foil, cardboard or plastic bottles).

Make a step by step guide of how to put somebody into the recovery position. You may choose to include diagrams to add to your instructions.

Year 4

Medicine Homework Menu

Use the shell of a hardboiled egg and place the same amount of shell in different containers. Add a different liquid to each container e.g fizzy drink, orange juice, water and milk. Leave it for a few days and observe what happens. Make a prediction before you start and present your findings.

Create a factfile about a famous medical practitioner that inspires you.

Research revolting medicines from the past and present what you have found out in an interesting way. Be prepared to share your findings.
