Learning Living Loving Together

18th September 2019

Dear Parent/Carer

Autumn Term Homework 2019-2020

Please find attached your child's homework map for this term. In addition to the homework, all children in KS1 will have reading three times a week and spellings. In KS2, the children will have reading three times a week, spellings and maths timestables. Reception children will have tub words and reading books as appropriate.

There will be a new homework map for each term and it will always be sent out at the start of term. We ask that you help your child to pick two for each term, so there will be six homework activities a year. These activities will compliment what the children are doing in the classroom. They will not be the traditional based homework tasks but encourage family-oriented activities. We will be encouraging families to talk about their child's class based learning at home.

We believe that homework is more interesting, engaging and develops multiple skills like critical thinking, creativity and an inquiring mind.

Year 6's will have some written and maths homework to support them through SATs. This will be revision questions and revision books.

The first homework will be due on Monday 14th October with the second being due on Monday 9th December.

Yours faithfully

Mr D Smith
Deputy Headteacher

Design and build an eco-house.
How sustainable can you make this?

Create a luxurious piece of jewellery from recycled materials.

Research Archimedes and put his principles to the test. (Investigation sheet can be collected from your class teacher)

Create a short film or advert about an issue related to our topic.

Design a poster focussed on teaching people about recycling but you can only use paper.

Go on a litter pick and present your findings in any way you would like.

Research a current environmental issue. What could we all do to help this? Present findings to the class.

Imagine the world in 150 years time, if climate issues continue. Write the first chapter of a story set in these times.

Create a fact file about an environmental campaigner e.g. Greta Thunberg

Explore how much water your household uses each day, month and year. Find out how much this costs. 5 litres is 1p.
